

DECOMMISSIONING DASHBOARD

BYU OFFICE OF IT

Measuring our efforts to retire and remove
unnneeded or redundant technology.

	Apps and services retired or reduced	Gaps closed in security, privacy, or compliance	Financial savings	Labor hours made available
2021	14	6	\$1.5 Million	548
2022	30	10	\$2.3 Million	20,390
2023	35	15	\$4.3 Million	4,174
2024	21	0	\$1.8 Million	630
2025	5	0	\$0.2 Million	0
Total	105	31	\$10.1 Million	25,742

RECENT RETIREMENTS

Here is what we've done lately to reduce our digital footprint.
You can find more of this [on The Elevator](#).

[Workday Harvest Begins](#)

PayScale was the first of 12 software contracts that BYU will retire thanks to Workday. Combined these retirements will create \$1.3 million in annual savings.

[Computer Science Drops Their Network](#)

The CES Network Center earned trust and partnered to reduce duplication on campus.

[AV Improves Service, Cuts Costs](#)

By switching to a new wireless screen-sharing technology, BYU's AV team saved \$567,000 in hardware costs and improved user experience.

[Alation Rightsizing](#)

Data & BI portfolio reduced contract for data catalog by \$100,000 annually.
