

DECOMMISSIONING DASHBOARD

BYU OFFICE OF IT

Measuring our efforts to retire and remove
unnneeded or redundant technology.

| | Apps and services retired or reduced | Gaps closed in security, privacy, or compliance | Financial savings | Labor hours made available |
|-------|--|---|----------------------|-------------------------------|
| 2021 | 14 | 6 | \$1.5 million | 548 |
| 2022 | 30 | 10 | \$2.3 million | 20,390 |
| 2023 | 35 | 15 | \$4.3 million | 4,174 |
| 2024 | 3 | 0 | \$169,000 | 180 |
| Total | 82 | 31 | \$8.3 million | 25,292 |

RECENT RETIREMENTS

Here is what we've done lately to reduce our digital footprint.
You can find more of this [on The Elevator](#).

ID Center Equipment

By working smart, the ID Center retired 4 cameras and 3 printers without replacement, saving \$69,000.

Alation Rightsizing

Data & BI portfolio reduced contract for data catalog by \$100,000 annually.

Java CAS Proxy

Retirement modernizes authentication and aligns key systems with identity road map.

Cisco Phones

Moving to RingCentral allowed us to retire thousands of phones, hundreds of phone lines, dozens of servers, call center software, and the E911 app.
